

Keynote by Liz Weber, CMC, CSP

Strategically Driving Change During Change

When no one thinks they want it

- Has the way you need to lead and do business changed dramatically?
- Are you constantly looking for ways to better support your teams through change?
- Would it make your life easier if others got 'on board' quicker so you could implement the needed initiatives sooner?

If your audience members would answer 'YES' to just one of those questions, this presentation is for them!

Strategic changes typically position organizations for even greater flexibility, agility, and success. In this program, Liz Weber shares insights and use cases to help your audiences understand how to support, manage, and lead change—strategically.

Format: 45-Minute – 3+ Hour Keynote and/or Workshop.

“

I've attended dozens of leadership presentations...but without a doubt, Liz Weber's was the best I've ever seen. She knew our audience, understood our issues and challenges, and spoke directly to them in a concise manner...

Thank you!

This presentation is perfect for:

- Leaders and Leadership Teams
- Business Owners
- Human Resources Professionals
- Boards of Directors

The audience will leave knowing how to:

- Outline a process to lead their teams to and through needed change
- Identify strategic opportunities for increased agility, performance, and profits
- Communicate and 'sell' the benefits of strategic change initiatives more effectively
